## PROFILE

Junior Software Developer with self-employed experience in game development and business operations. Currently studying part-time towards a BSc (Honours) Computing and IT (Software), while continuing to build full-stack and game development projects. Strong foundation in JavaScript, APIs, React, NextJs and responsive web design.

## EXPERIENCE

Game Developer | Self-Employed | Jan 2023 – Present

- Developed games using Unreal Engine, UEFN, and Verse.
- Collaborated with small teams to create and publish projects.
- Utilized VS Code and Blender for coding and asset creation.

Furniture Restoration & Paint Spraying | Self-Employed | Jan 2020 – Present

- Managed business operations including orders, finances, and SEO.
- Maintained accurate data records and met strict deadlines.

Lab Technician | Hanson Cement | Jan 2019 – Jan 2020

- Conducted lab testing and recorded data accurately.
- Ensured compliance with deadlines and quality standards.

CAD Technician Apprenticeship | Road Traffic Solutions | Jan 2017 – Jan 2019

- Produced detailed roadwork drawings using CAD software.
- Worked collaboratively to complete projects under tight deadlines
